**RE: Registered Dietitians Scope of Practice Review**

Dear Ms. Schiefer

I appreciate the opportunity to provide feedback on the various Colleges' scopes of practice reviews – specifically, the submission by the College of Dietitians of Ontario.

I feel that the outline provided by the College of Dietitians of Ontario will improve patient care and the submission put forth makes sense on so many levels.

Registered Dietitians are critical members of interdisciplinary teams within the Health Care setting and provide a vast array of knowledge that is essential and well received.

In kindest regards,

Denise Cummings MSW, RSW
