

I feel that the proposal for the revised Scope of Practice for Pharmacists is a major and important move forward for Pharmacists. I am a Consultant in Long-term Care and work collaboratively with physicians and nurses (as well as other professions). I feel that pharmacists are in a prime position to practice under the changes proposed by the Ontario College of Pharmacists and the Ontario Pharmacists' Association. It is time for Pharmacists to speak up and be heard!

Frances Grunwald RPh., B.Pharm., CGP
