

FOREWARD

The following document is a summary table outlining the controlled acts authorized to the various 28 regulated health professions in Ontario. The table is organized according to the 14 controlled acts listed in the *Regulated Health Professions Act, 1991 (RHPA)*. The exact wording found in the profession-specific acts which gives the health profession its authority to perform the controlled act(s) is listed under the column "Legislation" and all affiliated regulations related to this controlled act authority is listed in the "Regulation" column.

For certain controlled acts (communicating a diagnosis; performing a procedure on tissue below the dermis; applying or ordering a form of energy; prescribing, dispensing, selling or compounding a drug; and treating by means of psychotherapy technique), "exemptions" are listed. These exemptions, found in the Controlled Acts regulation under the *RHPA*, contain clauses to indicate when health professions are exempted from the application of particular legislative requirements (e.g. With the controlled act of communicating a diagnosis, a medical geneticist who holds a doctorate degree is exempt from the *RHPA* when he/she is communicating a diagnosis for the purpose of identifying a genetic disease or genetic disorder).

The information found in this document updates the current document found on HPRAC's public website **SUMMARY OF CONTROLLED ACTS OF REGULATED HEALTH PROFESSIONS IN ONTARIO**. Since the initial posting of this summary document, new regulations or amendments to regulations have taken place that needed to be captured. For instance, new regulations related to the controlled acts of performing a procedure on tissue below the dermis, administering a substance by injection and prescribing of drugs by the chiropody and podiatry professions were introduced in September 2008. It would be our intention to replace the current website document with this current version.

Health Professions' Legislation and Regulations on Controlled Acts

| | |
|---|----|
| 1. Communicating to the individual or his or her personal representative a diagnosis identifying a disease or disorder as the cause of symptoms of the individual in circumstances in which it is reasonably foreseeable that the individual or his or her personal representative will rely on the diagnosis. | 3 |
| 2. Performing a procedure on tissue below the dermis, below the surface of a mucous membrane, in or below the surface of the cornea, or in or below the surfaces of the teeth, including the scaling of teeth. | 7 |
| 3. Setting or casting a fracture of a bone or a dislocation of a joint. | 19 |
| 4. Moving the joints of the spine beyond the individual's usual physiological range of motion using a fast, low amplitude thrust. | 20 |
| 5. Administering a substance by injection or inhalation. | 21 |
| 6. Putting an instrument, hand or finger, | 28 |
| i. beyond the external ear canal, | 28 |
| ii. beyond the point in the nasal passages where they normally narrow, | 28 |
| iii. beyond the larynx, | 28 |
| iv. beyond the opening of the urethra, | 28 |
| v. beyond the labia majora, | 28 |
| vi. beyond the anal verge, or | 28 |
| vii. into an artificial opening into the body. | 28 |
| 7. Applying or ordering the application of a form of energy prescribed by the regulations under this Act (<i>RHPA</i>). | 36 |
| 8. Prescribing, dispensing, selling or compounding a drug as defined in the <i>Drug and Pharmacies Regulation Act</i> , or supervising the part of a pharmacy where such drugs are kept. | 43 |
| 9. Prescribing or dispensing, for vision or eye problems, subnormal vision devices, contact lenses or eye glasses other than simple magnifiers... .. | 65 |
| 10. Prescribing a hearing aid for a hearing impaired person. | 66 |
| 11. Fitting or dispensing a dental prosthesis, orthodontic or periodontal appliance or a device used inside the mouth to protect teeth from abnormal functioning. | 67 |
| 12. Managing labour or conducting the delivery of a baby. | 68 |
| 13. Allergy challenge testing of a kind in which a positive result of the test is a significant allergic response. | 69 |
| 14. Treating, by means of psychotherapy technique, delivered through a therapeutic relationship, an individual's serious disorder of thought, cognition, mood, emotional regulation, perception or memory that may seriously impair the individual's judgement, insight, behaviour, communication or social functioning. | 70 |

| Controlled Act |
|--|
| 1. Communicating to the individual or his or her personal representative a diagnosis identifying a disease or disorder as the cause of symptoms of the individual in circumstances in which it is reasonably foreseeable that the individual or his or her personal representative will rely on the diagnosis. |

| Profession | Legislation | Regulations |
|--------------------|--|-------------|
| Chiropody/Podiatry | In the course of engaging in the practice of chiropody, a member who is a podiatrist is authorized, subject to the terms, conditions and limitations imposed on his or her certificate of registration, to perform the following: 1. Communicating a diagnosis identifying a disease or disorder of the foot as the cause of a person's symptoms. S.O. 1991, c. 20. | |
| Chiropractic | In the course of engaging in the practice of chiropractic, a member is authorized, subject to the terms, conditions and limitations imposed on his or her certificate of registration, to perform the following: 1. Communicating a diagnosis identifying, as the cause of a person's symptoms, i. a disorder arising from the structures or functions of the spine and their effects on the nervous system, or ii. a disorder arising from the structures or functions of the joints of the extremities. S.O. 1991, c. 21. | |
| Dentistry | In the course of engaging in the practice of dentistry, a member is authorized, subject to the terms, conditions and limitations imposed on his or her certificate of registration, to perform the following: 1. Communicating a diagnosis identifying a disease or disorder of the oral-facial complex as the cause of a person's symptoms. S.O. 1991, c. 24. | |
| Medicine | In the course of engaging in the practice of medicine, a member is authorized, subject to the terms, conditions and limitations imposed on his or her certificate of registration, to perform the following: 1. Communicating a diagnosis identifying a disease or disorder as the cause of a person's symptoms. S.O. 1991, c. 30. | |

| Controlled Act |
